

## **St John's Harpenden: Mission Action Plan 2015-2020 (Draft)**

Our **vision** is to sustain and develop our vibrant all-age worshipping community, living out our faith in Jesus Christ in all we do, so that more and more people in our Parish are touched by his love.

Our **mission** is to welcome everyone warmly and enable all to grow spiritually - nourished and transformed by reverent and relaxed worship and inspired to live and share God's love.

Much progress has been made since our first MAP was drawn up for the period 2012-2017.

Many things set out there have happened or are well under way and do not reappear here (even though it remains no less important that they continue and develop), such as

- involving young people in worship more, in particular through the well-established Junior Choir
- the successful 'Tea at 3' initiative, the work of the St John's visitors and the welcome team
- the Church being open during the day, a link with Embrace, new look parish magazine and logo.

Other things from our first MAP re-appear in a more developed or advanced form.

This refreshed MAP not only charts progress along an established route but also expresses our sense of being called to be open to new opportunities and challenges:
